Subject: Follow up on Southern Indiana CSO consent decrees

Hi Joshua,

I'm following up on my colleague Jim Bruggers' email to you last month about consent decrees for cities in Southern Indiana counties that I cover.

I'm working on a report with Jim on CSOs and SSOs in the Louisville metro area. While much of the report will focus on Louisville, we know that there are southern Indiana communities that we cover that also are under consent decrees for sewage overflows.

We wanted to know if you could help us identify which cities those would be. You sent my colleague Jim this link (<https://www.epa.gov/sites/production/files/2016-03/documents/epa-nei-css-consent-decree-tracking-table-033016.pdf>) to identify cities with consent decrees. However, it only contains information on CSO consent decrees of cities with populations of 50,000+.

We are interested in knowing which cities have consent decrees in Clark, Floyd, Harrison, Scott and Washington counties.

If you could let me know how to get information for cities in these counties, I would appreciate it.

Thank you for your help, and I look forward to hearing from you soon.

Best,
Maddie Winer
